OUR WATER EFFICIENCY POLICY

We accept the protection and sustainable use of water resources as one of our main responsibilities and we undertake to control water consumption, reduce water losses and continuously improve water efficiency within the scope of our tourism and accommodation service.

In this direction;

* Monitors and improves water usage regularly,

* Acts in accordance with legal conditions and applicable requirements,

* Supports the use of water-efficient equipment, products and technologies,

* Encourages our employees to become aware of water efficiency,

* Evaluates our performance regularly by setting measurable goals,

• We continuously improve our water efficiency management system.

This policy is binding for all our employees and stakeholders and is regularly reviewed and updated.
